Pari chowk, Gr. Noida,, UP

Objective: A software engineer with a foundation in cybersecurity, seeking to apply skills in system architecture and threat analysis to build secure and innovative applications.

Education

B.Tech CSE (Cyber Security)	8.21 CGPA
Noida Institute of Engineering & Technology, Greater Noida, UP	2023-Present
Senior Secondary (Class XII)	87.6 %
T.N.B College , Bhagalpur, Bihar	BSEB 2022
Secondary (Class X)	88.8 %
B. High School , Khagaria, Bihar	BSEB 2020

Projects

Personal Firewall & Intrusion Detection System (2-Month Project)

- Built a Python-based, host-level security system for real-time network traffic monitoring.
- Implemented rule-based firewall logic to control inbound and outbound connections.
- Developed intrusion detection capabilities to identify port scanning and abnormal traffic behavior.
- Enabled security logging and alerting for effective threat monitoring and analysis.
- Executed on Windows using Npcap with optional integration to Windows Defender Firewall.
- Tech Stack: Python | Networking | Cyber Security | Scapy | Npcap.

News Aggregation Web Application (1-Month Project)

- Developed a responsive news aggregation website using HTML, CSS, and JavaScript to display real-time news updates.
- Integrated a News API to fetch and aggregate articles from multiple reliable sources.
- Implemented category-wise and time-based filters (e.g., Today, Last 7 Days) to enhance content discoverability.
- Designed a clean, user-friendly interface with dynamic content loading using JavaScript.
- Improved usability by handling duplicate news articles through title and content-based checks.
- Tech Stack: HTML | CSS | JavaScript | News API | Web Development

Technical Skills

Languages: C, Java, SQL | **Web & Tools:** HTML, CSS, JavaScript, Git, Linux | **Concepts:** OOP, DBMS, Operating System, Networking, Cybersecurity Fundamentals

Core Competencies

Analytical Problem-Solving | Team Collaboration | Agile Adaptability | Technical Communication | Quick Learner

Hobbies

Algorithmic Problem-Solving | Cybersecurity Trends | Music | Geopolitics & global current affairs | Cricket

Certifications

- Programming using Java** | Infosys Springboard | March 2025
- Cyber Security and Hacker Tactics Awareness Training** | Infosys Springboard | March 2025
- Comprehensive Training on Unix and Linux OS Fundamentals** | Infosys Springboard | October 2024
