Gaur City-2, Ghaziabad, UP

Objective: A software engineer with a foundation in cybersecurity, seeking to apply skills in system architecture and threat analysis to build secure and innovative applications.

Education

B.Tech CSE (Cyber Security)	9.24 CGPA
Noida Institute of Engineering & Technology, Greater Noida, UP	2023-Present
Senior Secondary (Class XII)	88.50 %
Bal Mandir Sr. Sec. School, Delhi	CBSE 2023
Secondary (Class X)	93.83 %
Bal Mandir Sr. Sec. School, Delhi	CBSE 2021

Projects

Web Application Vulnerability Scanner

(2-Month Project)

- Developed a Python-based security tool to automate the discovery and analysis of critical web vulnerabilities.
- Engineered a web crawler using Requests and BeautifulSoup to map target applications and identify potential attack vectors in URLs and forms.
- Implemented payload injection modules to detect key OWASP Top 10 vulnerabilities, including SQL Injection (SQLi) and Cross-Site Scripting (XSS).
- Designed a reporting engine to log all findings with severity levels and evidence into structured output files for analysis.
- Tech Stack: Python, Requests, BeautifulSoup.

Mr. Decoder | Client-Side Encryption Tool

(1-Month Project)

- Developed a secure, client-side tool for text and file encryption/decryption using HTML5, CSS3, and JavaScript.
- Integrated various cryptographic algorithms (AES, SHA-256, Base64, XOR) via the CryptoJS library.
- Engineered user-centric features including one-click copy, result download, QR code sharing, and a responsive UI with Tailwind CSS.
- Tech Stack: JavaScript, CryptoJS.js, QRCode.js, HTML5, CSS3, Tailwind CSS.

Technical Skills

Languages: Python, Java, SQL | **Web & Tools:** HTML, CSS, JavaScript, Git, Linux | **Concepts:** OOP, DBMS, Operating System, Networking, Cybersecurity Fundamentals

Core Competencies

Analytical Problem-Solving | Team Collaboration | Agile Adaptability | Technical Communication

Hobbies

Algorithmic Problem-Solving | Ethical Hacking Labs | Cybersecurity Trends | Music | Competitive Gaming

Certifications

- Programming using Java** | Infosys Springboard | March 2025
- Cyber Security and Hacker Tactics Awareness Training** | Infosys Springboard | March 2025
- Comprehensive Training on Unix and Linux OS Fundamentals** | Infosys Springboard | October 2024
